# Quick & Easy To Prepare

- **Mr. Eats Croquettes - Bite Size:** No need to thaw before frying.
- Fry the croquettes in oil heated to a temperature between 350°F and 400°F.
- Ensure the croquettes are completely submerged in the oil. It's recommended to have the oil level in the fryer at least 1 inch above the croquettes.
- Fry the croquettes for 3 to 5 minutes until golden brown, maintaining the correct oil temperature.
- Once fried, drain the croquettes well. For optimal results, transfer them to a food warmer display for an additional 5 to 6 minutes to ensure even heating throughout.
- Following these steps will ensure that **Mr. Eats Croquettes** remain warm on the inside and crispy and dry on the outside.
